INTRODUCTION

VISION

Achieving sales of 12000 MT by 2023 with a great combination of customer centric approach & best of the products.

MISSION

To empower a diversified customer base with best of the customized value added polymers at a reasonable cost.

QUALITY POLICY

We at EDGE POLYMERS are committed to Manufacture and supply of compounded polymers. We shall strive for enhancing customer satisfaction through continual improvement in

- ✓ Product Quality
- ✓ Delivery Performance
- ✓ Skills of Employees
- ✓ Quality Management System

PROCESS FLOW

We follow a set of process to ensure a productive output.
The methods include:-

RAW MATERIAL INSPECTION

To guarantee the nature of purchased raw material we test every batch for its properties. We have state of the art lab equipments, for inspection.

BLENDING

We always tend to use best of technology. We use high-speed mixers to blend the ingredients required to fulfil requirements of our valued customers.

COMPOUNDING

We have latest and updated machineries to manufacture compounded polymers. Our machinery ensure that all the ingredients are uniformly compounded to give best results to customer.

QUALITY INSPECTION

From raw materials to finish products we maintain quality check to ensure and excellent output. Each and every batch of polymers manufactured is inspected and its test certificates are shared with customers.

PACKING

We offer uniform packing system to all our clients. We usually use plastic woven sacks for packing.
